FEDERATION OF EASTERN AFRICA UNIVERSITY SPORTS

WHO WE ARE

The Federation of Eastern Africa University Sports (FEAUS) is one of the five FASU Zones mandated to oversee university sports activities in Eastern Africa. The Federation has a history that dates back to the 1950s during the times when the East Africa Community had one university; the University of East Africa, with three Colleges (Makerere, Nairobi and Dar es Salaam University Colleges).

The Flagship event of FEAUS is the Eastern Africa University Games, which started in 1958 as inter collegiate games for the three constituent Colleges of the University of East Africa with 9 editions that sadly ended in 1973 when political challenges affected the region. These are the oldest inter-state games on the continent, that later gave birth to the East and Southern Africa University Sports Association (ECSAUSA) Games held in Lusaka 1983 and Kampala 1986.

FEAUS was revitalized in 1999 with the revival of the East Africa University Games at Egerton University in Kenya, and has a current membership of universities across the eastern region of Africa.

The Federation is governed by an Executive Board of 15 members, elected every four years, with a permanent secretariat located at Makerere University in Kampala Uganda. The current leadership was elected in March 2021 and will serve until March 2025.

// CURRENT PROGRAMMES AND EVENTS

The organization has established a two-year calendar of events with various activities categorised under four major sectors including Administration, Sports Competitions, Mass Participation, Education and People Reforms (which covers PLWDs and Women).

The Zone also boasts of hosting numerous FASU and FISU events including 5 editions of the FASU Games, 7 FASU General Assemblies, 12 FASU championships, 3 FISU championships, 2 FISU Seminars and 2 Strategic dialogues among others.

The Five FEAUS
strategic areas;

- Administration ●
- Sports Competitions ●
- Mass Participation ●
- Education ●
- People Reforms ●

01 / Eastern Africa University Games

The FEAUS in conjunction with Ndejje University organized the 12th Eastern Africa University Games 2022 at the University's main campus in Luwero-Uganda under the theme: "Strengthening the Integration of Eastern Africa Higher Education through University Sports". The event, commonly known as the EAUG, is a multi-sport university event organized in December of every even year (on a 2 years cycle) and ran from 17th through 21st December 2022.

Participation is by individual Universities with a average participation of 4000 – 5000 participants from universities across Eastern Africa. Games are held in even years during the December school break to allow access to student accommodation facilities and reduce interference with university academic programmes.

02 Eastern Africa University Championships

These are single sport championships where competition is by individual universities, unless under special consideration.

Elite Championships;

- These have limited participation of maximum 16 universities per gender and are organized only once every two years during the odd years. Qualification is based a quota system of countries with FEAUS member universities.

- The championships include Football; Basketball; Rugby 7s and Volleyball scheduled to start in 2023, with a possibility of adding others based on demand.

General Championships;

- These are general championships organized annually with an element of sports promotion and development where the number of participating institutions is not limited.

- The championships include Sports for PWD; Woodball; Cricket; Hockey; and Cross Country among others also scheduled to start in 2023.
